

IMPROVING FOR EVERYBODY

After the great success of Cinegética 2014 with over 33.000 visitors and a lot of bookings, now the organizing committee heads forward to achieve new goals. The purpose of the team is that Cinegética becomes the biggest and most important reunion for hunters, fishermen and nature fans in Spain, and in Europe.

As of today the largest distributors and manufacturers of guns and hunting equipment in Spain have already reserved their space, along with many of the past exhibitors that are sending their deposits to make sure they get the best locations on the show floor.

The convention staff is preparing a wide array of exhibitions and activities to make this next's years show blast for all the visitors and a great all around experience. Like in 2014 the taxidermy exhibitions, conferences, dog demonstrations and falconry flight, will accompany the bow and arrow shooting range, pellet gun shooting range. On Friday night the gala of the CINEGÉTICA AWARDS, CULMINUM MAGISTER BROTHERHOOD, and SUMA HISPANICA award will be held at the last year's ball room.

For the fishing enthusiast there will be the largest portable aquarium, with 22.000 liters, where the main brands of fishing equipment will demonstrate the advantages of the new coming gear.

We would like to offer the exhibitors and the visitors improved channels of communications and document sharing, so we have invested a lot of time and Money to offer the brand new web page, which will be very modern, effective, complete and very functional.

Cinegética 2015, will take place on pavilion 12 of IFEMA (Madrid), in March from the 19th to the 22nd.
